MEMORANDUM FOR THE RECORD

Morning Meeting of 8 October 1968

25X1

Godfrey reminded that today and tomorrow are "Che Guevara days" in Latin America, and DD/P added that there have been a number of indications of planned terrorist activity during this period.

DD/S reported that we have had to undertake our first withdrawal from on campus recruitment at Marquette University.

DD/S announced that his Directorate is planning a central awards ceremony for next Thursday.

Carver advised that Admiral Shepard, ISA's new Southeast Asia man, was briefed yesterday at Headquarters.

25X1 [] indicated that Maury is with Senator Jackson this morning.

25X1 [] advised that Maury determined yesterday from Messrs. Darden and Woodruff that there are no left-over issues or problems from last week's Senate ABM debate.

25X1 DD/S&T reported that the U-2 leaves tonight for a week's deployment []

DD/P advised that no NATO military documents or highly sensitive Italian defense documents were compromised by the spy ring wrapped up over the weekend.

D/ONE noted that practically the whole of NIE 11-8-68 and then some appeared in an article in last Sunday's New York Times magazine.

Executive Director pointed out that our budget and Program Memoranda were dispatched to the Bureau of the Budget on 1 October and that hearings on the budget are slated to begin on 10 October with the Office of Communications on the stand first. Executive Director advised that, because of the extensive work that has gone into the budget and Program Memoranda, there will be no across-the-board hearings this year but rather select hearings in those areas where increases are being sought or where unresolved issues exist. Executive Director noted that the Bureau will be reviewing its findings with Mr. Zwick on 7 November.

DDCI noted that USIB has asked GMAIC for a proposed policy position on the classification of the subject and source of information regarding sensitive Soviet strategic military developments. As Secretary Clifford must attend a NATO meeting next week where he may be asked to comment on Soviet MRV developments, GMAIC's draft proposal will be placed before USIB this coming Thursday, thereby short-circuiting some of the normal coordinating processes. In any case, Secretary Clifford will be advised to respond at the Secret level to any question about MRV, saying only that we know the Soviets are testing MRV's and nothing more.

DDCI reported that General Carroll has agreed to the initiative of a CIA/DIA paper on the military aspects of Yugoslavia's posture vis-a-vis a Soviet military intervention. DDCI asked that the ONE Staff Memorandum referred to yesterday be updated and distributed as either a Staff or Board Memorandum to serve in conjunction with the CIA/DIA military study.

DDCI advised that DOD has come to a dead end on tracking leaks, especially on MIRV.

The Director inquired about what progress is being made on the proposed film to project CIA's non-Clandestine Services missions and functions. Upon being informed by DD/S that no consensus has yet been reached on the kind of image such a film should project, the Director urged that the film focus on telling it like it is, that is, explaining by the use of one or more case studies the various processes involved in producing intelligence information and judgments.
